

# How to Prepare for an Interview

Everyone is different and we aren't all interview experts. In order to provide an equal playing field, we provide our candidates with an opportunity to prepare in advance. We want to ensure that you are able to put your best foot forward and tell us about what would make you a great fit for Canfor.

## Interview Questions

- Review and prepare answers and examples to common interview questions - in some cases, you may be provided the questions in advance
- Be thoughtful and honest with your examples and let us know who you are

## Research the Company

- Visit Canfor's website and read about the different areas of the business
- Look at Canfor's Values and determine if they align with your own

## Read the Job Description

- Compare your skills and qualifications to the job requirements
- Ensure you understand the roles and responsibilities of the position you are applying

## What to Bring

- A copy of your current resume
- A copy of your Certifications
- Questions and notes about the Company or the role

## What to Remember?

- Be organized – Ensure your notes are easy to read and not difficult to reference
- Be detailed – Business casual dress is appropriate for your interview and if a mill tour is involved, PPE will be required
- Be thorough – Practice saying your answers out loud to yourself or to a friend
