Darrell Regimbald:

Your proposed extension to Sustainable Forest Management Plan (SFMP) #2 for the Fort St. John Code Pilot, dated August 24, 2015 has now been reviewed.

As outlined in Section 39.1 of the Fort St. John Pilot Project Regulation (FSJPPR), this is written notice that SFMP 2 is now extended for the period April 1, 2016 to March 31, 2018.

In accordance with Section 39 (1) of the FSJPPR, we are satisfied that the plan is consistent with the requirements of the regulation and the *Forest and Range Practices Act*; provides at least the equivalent protection for forest resources and resource features as provided by the *Act* and the FSJPPR; and will adequately manage and conserve forest resources.

Yours truly,

Karilyn Vince
Regional Executive Director
Northeast Region

Chris Addison
Director of Resource Management
Northeast Region
